Overview of Cell Cycle

1. What is a series of events that cells go through as they grow and divide?

2. What is the longest stage of the cell cycle called?

3. What is the shortest stage of the cell cycle called?

4. During what stage does the G1, S, and G2 phases happen?

5. During what phase of the cell cycle does cell division occur?

6. During what phase of the cell cycle is DNA replicated?

7. During what phase of the cell cycle does the cell grow?

8. Put the following stages of the cell cycle in order: G2, S, G1, M.

9. Put the following actions in order: DNA replication, cell grows, cell division, cell prepares for mitosis.

LIVEWORKSHEETS

10. What does the “S” means for the S phase?
