FINAL TEST

LISTENING

(10 minutes)

PART 1 ***Questions 1-10***

Complete the form below.

*Write **ONE WORD AND/OR A NUMBER** for each answer.*

Early Learning Childcare Centre

Parent or guardian: Carol Smith

Personal Details

Child's name: Kate

Age: **1** .....

Address: **2** ..... Road, Woodside, 4032

Phone: 3345 9865

Childcare Information

Days enrolled for: Monday and **3** .....

Start time: **4** ..... a.m.

Childcare group: the **5** ..... Group

Which meals are required each day? **6** .....

Medical conditions: needs **7** .....

Emergency contact: Jenny **8** .....

Relationship to child: **9** .....

Phone: 3346 7523

Fees

Will pay each **10** .....

LIVEWORKSHEETS

PART 2 ***Questions 11-20***

Questions 11-14

Complete the notes. Write ***NO MORE THAN ONE WORD AND/OR A NUMBER*** for each answer.

Example:	*Grandview Hotel*
Arrival date:	**11** ..... 13th Number of nights: 2
Number of guests:	**12** .....
Guest name:	Roxanne **13** .....
Credit card number:	**14** .....

Questions 15-17

*Choose **THREE** letters, A-G*

*Which **THREE** places will the caller visit?*

A. art museum
B. science museum
C. shopping mall
D. monument
E. post office
F. restaurant
G. park

Questions 18-20

Choose the correct letters, A, B or C

18. When will the caller arrive at the airport?

A. In the morning B. In the afternoon C. At night

19. How will the caller get to the hotel?

A. Subway B. Bus C. Taxi

20. What time does the hotel front desk close?

A. 10:00 B. 12:00 C. 2:00

READING

(20 minutes)

READING PASSAGE 1

You should spend about 10 minutes on Questions 1–4, which are based on Reading Passage 1 below.

A giant panda at a zoo in the United States has given birth to twin cubs

Keepers at the Smithsonian National Zoo in Washington DC only discovered Mei Xiang was pregnant during an ultrasound scan last week. The zoo said both cubs appeared healthy. Giant pandas are one of the most endangered species in the world and are notoriously hard to breed in captivity.

The National Zoo is one of only four zoos in the US to have pandas, which are on loan from China. Mei Xiang, who has two other offspring, is one of the zoo's star attractions and a Panda Cam on her enclosure crashed within seconds of the birth of the first cub being announced because of the volume of interest.

Female pandas are able to conceive for only two or three days a year, leading to a very low reproduction rate. Mei Xiang was artificially inseminated with sperm from the zoo's resident male Tian Tian and a panda named Hui Hui from Wolong, China. It will not be known for a while which is the father, or what sex the cubs are.

It has previously taken months before Mei Xiang's cubs have been introduced to the public. AP news agency reports that her first cub, Tai Shan, was born in 2005 and returned to China in 2010; her second cub, Bao Bao, is two years old on Sunday and still lives at the zoo. The panda population is threatened by habitat loss as land is increasingly inhabited by humans, with about 1,800 pandas left in the wild in China. However, the number living in the wild in China has gone up over the last 10 years.

LIVEWORKSHEETS

Complete the sentences below.

*Write **NO MORE THAN THREE WORDS** from the passage for each answer.*

1. Mei Xiang pregnancy was discovered with an ..... last week.
2. Pandas from the USA National Zoo are ..... from China.
3. Due to the short conceiving period, pandas have a low .....
4. Pandas are in danger because their lands are increasingly .....

READING PASSAGE 2

You should spend about 10 minutes on Questions 5–8, which are based on Reading Passage 2 below.

August 1985: The worst month for air disasters

There are many grim landmarks in the history of aviation. One in particular stands out. Three decades ago, 720 travellers and crew lost their lives on board commercial aircraft in a single month - more than in any other before or since.

The deaths occurred in four separate accidents in August 1985. Each disaster had quite different causes. The aircraft involved ranged from a 747 with hundreds on board to a tiny twin engine turboprop carrying just eight people.

There was Japan Airlines flight 123, the worst single-aircraft accident in history, in which 520 of 524 on board were killed. A further 137 died when Delta flight 191 flew into heavy winds as it approached Dallas-Fort Worth International. A fire on board British Airtours flight 28M at Manchester Airport led to 55 deaths. And all those on board the smallest aircraft, Bar Harbor Airlines flight 1808, lost their lives as it flew into a small airport in Maine, USA.

Each, in their own way, had a lasting legacy, whether in the memories of those left bereaved or in changes in technology and procedure introduced as a direct result. The worst death toll was on Japan Airlines Flight 123, a Boeing 747, which was route from Tokyo to Osaka on 12 August 1985 when the airtight bulkhead between its cabin and tail tore was opened. The change in pressure blew off the vertical stabilizer, or tail fin. It also destroyed the hydraulic systems. The plane lurched up and down.

LIVEWORKSHEETS

*Choose the correct letter, **A**, **B**, **C** or **D***

5. When did the 720 travellers die?

A. Thirteen decades ago.

B. A decade ago.

C. 30 years ago.

D. There is no information about it.

6. Twin engine turboprop could carry:

A. Eight people.

B. Four people.

C. Two people.

D. Only a pilot.

7. The worst accident in history, according to the paragraph, was:

A. Flight 123.

B. Delta flight 191.

C. British Airtours flight 28M.

D. Bar Harbor Airlines flight 1808.

8. Why did the Japan Airlines Flight 123 crash?

A. The plane lurched up and down.

B. Destruction of the hydraulic systems.

C. The airtight bulkhead between its cabin and tail tore was opened.

D. It is unknown.

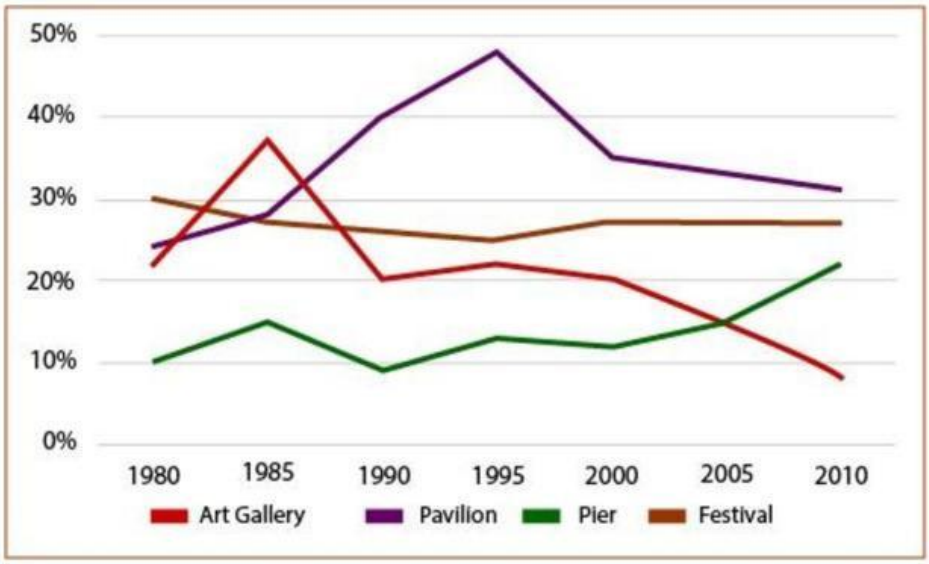
LIVEWORKSHEETS

WRITING

(30 minutes)

Exercise 1. Fill in the blank with the given words.

The line graph below shows the percentage of tourists to England who visited four different attractions in Brighton.



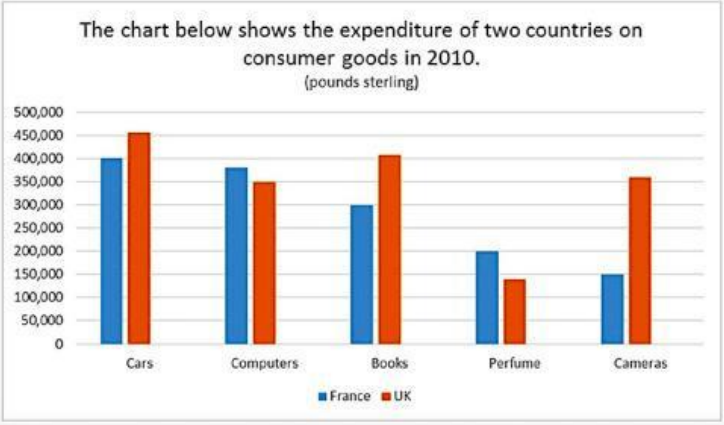
remained unchanged	least	a considerable increase
fluctuated	decreased sharply	

The line graph shows the percentage of tourists to England who visited certain Brighton attractions between 1980 and 2010. We can see that in 1980 and in 2010 the favourite attractions were the pavilion and the festival. In 1980 the **1.** …… popular attraction was the pier but in 2010 this changed and the art gallery was the least popular.

During the 1980s and 1990s, there was **2.** …… in the number of visitors coming to the pavilion from 28% to 48% and then the percentage fell to 31% in 2010. The trend for the art gallery was similar to the pavilion. The number of visitors rose dramatically from 22% to 37% from 1980 to 1985 then **3.** …… to less than 10% over the next twenty-five years. The number of tourists who visited the Brighton festival **4.** …… slightly and then **5.** …….. at about 25%. The percentage of people visiting the pier also fluctuated from 1980 to 2000 then rose significantly from 12% to 22% between 2000 and 2010.

LIVEWORKSHEETS

Exercise 2. Make sentences based on the given words.



a. The UK / spent / more money / consumer goods / France / during / period.

.....

b. Both the British and the French / spent / most / their money / cars.

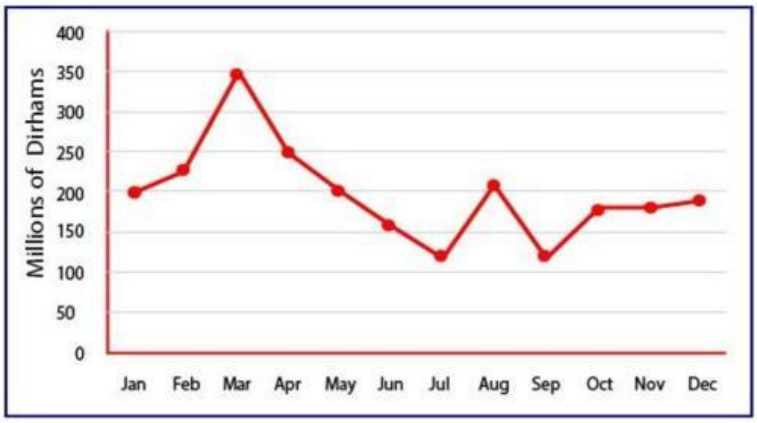
.....

c. The least amount / money / spent / perfume / UK.

.....

Exercise 3. Describe the graph by periods of time. Write full sentences.

The line graph shows estimated sales of gold in Dubai for 12 months in 2002 (in millions of Dirhams)



a. March – July

.....

b. July – October

.....

c. October – November

.....
