Cyber Safety

The internet is great, but it can also be scary
Playing games, looking at videos and talking to friends online can be a lot of fun! Take a look at these tips to make sure you do it safely.

Don't give information about yourself
Don't share personal stuff online like your full name, address or phone number. Someone could try to use this information to find you. Choose a fun nickname!

Only talk to people you know
When using social media or online chats, make your profile private and only add your friends in real life. Talk to your parents first before you chat with people you don't know.

Think before you post
You can get in trouble with Police if you send photos of you or other people without clothes on. You can also get in trouble if you bully someone or talk about hurting them.

LIVEWORKSHEETS

Watch what you buy online

Some stuff on the internet needs money like playing games or shopping. Always ask your parents before spending money online!

Talk to your parents about what you do on the Internet

Some things on the internet might make us feel scared or confused. Always talk to a parent or older person you trust if you are worried about something online.
