Loss of Biodiversity Review

1. Tick the words that cause a loss of biodiversity.

Recycling	**Hunting**	**Producer**	**Deforestation**
Decomposer	**Endangered species**	**Extinct**	**Pollution**
Overpopulation	**Global warming**	**Invasive species**	

2. Using the words from activity 1 above, match them to their definitions below.

a. This word describes a species that no longer exists.

_____

b. These organisms live on all of the remains of other living organisms.

_____

c. This occurs when forests are cut down.

_____

d. These living things make their own food.

_____

e. This word describes animals that are at risk of extinction.

_____

3. What are the "Three R's"?

a. _____

b. _____

c. _____

4. Match the definition to each of the "Three R's".

a. Using fewer materials. For example, printing on both sides of the page, or using a reusable grocery bag instead of a disposable plastic one.

_____

b. Putting the garbage in the correct bin so the material can be used to make something else.

_____

c. Using an item for multiple uses. For example, buying a jar of beans at the grocery and then washing and using that same jar to organize your pens and pencils on your desk.

_____
