PHOBIAS

Whether we admit it or not, most of us are scared of something. Some of us are afraid of snakes and even babies. This kind of fear is called Phobia.

WHAT IS A PHOBIA?

A phobia is a type of anxiety disorder that causes an individual to experience extreme irrational fear about a situation, living creature, place, or object.

When a person has a phobia, they will often shape their lives to avoid what they consider to be dangerous. The imagined threat is greater than any actual threat posed by the cause of terror.

TYPES OF PHOBIA

GAMOPHOBIA: Marriage is a serious decision for every person. It can be the stuff of nightmare for some while a fancy dream for others. So much so that we must have all come across people who say things like, "I'm not ready for marriage", "Marriage is not for me", "The idea of marriage is disturbing for me" All these are signs of running away from marriage or, in other words, the fear of marriage. So why are people afraid of marriage? The fear of marriage can arise from negative experiences of marriage witnessed in one's own family or close circle. The idea of being attached to one person makes some people think that it is better to live alone.

TRYPOPHOBIA: Why these or any images produce intense response in some people and not others is unknown.

Trypophobia is mainly visual. If you have this phobia, you might feel anxiety, disgust, and discomfort when looking at things like: strawberries, bubbles, leopards or Dalmatians. All of them have somethins in common holes.

CYNOPHOBIA: Cynophobia is an extreme fear of dogs. Children and adults with this disorder go out of their way to avoid dogs. They may have severe anxiety or a full panic attack when hearing a dog bark.

What causes a phobia?

There isn't one particular cause of phobias. There are various factors that might contribute to developing a phobia; Past incidents or traumas or Genetic factors.

WRITING

1 **Write a paragraph about your fears or terrible experiences you had in the past; Use the adjectives you learnt on this lesson.**

E.g.

When my sister was 10, she went to her best friend's birthday. She was excited and encouraged. My mom got a beautiful dress for her. In the party, my sister was having fun, because the party was amazing, but suddenly a strange person hung her and started laughing. My sister was terrified, disgusted and shocked. It was the first time that she saw a clown but the experience wasn't thrilling, it was disturbing for her. Since that moment, she has had coulrophobia.
