

### Repeated Addition

$$2 + 2 + 2 = 6 \quad \text{or} \quad 2, 3 \text{ times} = 6$$

4 bicycles of 2 wheels each.

$$\text{Number of wheels: } 2 + 2 + 2 + 2 = 8 \quad \text{or} \quad 2, 4 \text{ times} = 8$$

$$2 + 2 + 2 + 2 + 2 = 10 \quad \text{or} \quad \underline{\quad}, \underline{\quad} \text{ times} = \underline{\quad}$$

A rickshaw has 3 wheels. Count the wheels.

$$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad} \quad \text{or} \quad \underline{\quad}, \underline{\quad} \text{ times} = \underline{\quad}$$

Count the wheels of the cars.

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

or

$$\underline{\quad}, \underline{\quad} \text{ times} = \underline{\quad}$$

Count the fingers.

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad} \quad \text{or} \quad \underline{\quad}, \underline{\quad} \text{ times} = \underline{\quad}$$
