

SUMMER *by Calvin Harris*

When I met you in the winter / summer
To my heartbeat's sound
We / they fell in love
As the leaves turned red / brown

And we could be together, baby
As long as skies are blue / light blue
You act so innocent now
But you lied so soon
When I met you in the summer / winter

When I met you in the summer / winter
To my heartbeat's sound
We / they fell in love
As the leaves turned red / brown

And we could be together, baby
As long as skies are blue / light blue
You act so innocent now
But you lied so soon / late
When I met you in the winter / summer

Summer

When I met you in the winter / summer … Summer
