PART 3: READING COMPREHENSION

Read the passage carefully and choose the correct answer (A, B, C, or D).

Investment in education in Hung Yen province has increased a lot in recent years. The local government aims to make education one of the top 10 in Vietnam by 2045. In 2025-2026, they have spent more money on building new schools and improving old ones. For example, they converted extra government buildings into classrooms to reduce overcrowding. This helps more students have better places to learn. The province also invests in training teachers and buying modern tools like computers and projectors or smart TVs. In the 2024-2025 school year, the quality of education improved, with many students winning national prizes. The government plans to create a modern system that is fair and connected to the world. They want to build high-quality universities and focus on skills for jobs. Families and businesses also help by giving money for books and scholarships. These investments make Hung Yen a better place for learning. In the future, more money will go to technology and online classes. This will help students in rural areas too. Overall, investing in education helps the province grow and gives children a brighter future.

21. What is the goal for education in Hung Yen by 2045?
    A. To be the worst in Vietnam B. To be in the top 10 nationwide
