7 **IDENTIFY** Complete each excerpt from the podcast with a phrasal verb from the box. Change the tense of the verb as needed. Listen again if needed.

A: So, you've actually [1] _____ a way to record dreams on video. Is that really possible?

B: It certainly looks that way, and I'm really excited about it. Researchers have [2] _____ many different approaches over the years,...and now we've finally [3] _____ a method that works.

A: Yes. I'm sure you and your team [4] _____ a lot together before you [5] _____ finding success.

B: We sure did. Sometimes there were differences of opinion, but we [6] _____ things _____ together. They're very dedicated, professional researchers.

A: Could you [7] _____ the basic process for our listeners? How do you [8] _____ recording someone's dream?

B: Well, we use technologies like EEG and magnetic resonance imaging, or MRI, to observe the brain as it processes images.... We [9] _____ these machines a supercomputer, which can then create a video of whatever a person is dreaming about.
