Most colds are passed by germs on hands. Wash your hands with soap and water. You can use special hand wipes that kill germs, too.

1. What is a good way to get rid of cold germs?

(A) putting your hands in your pockets

(B) washing your hands a lot

(C) staying in the house a lot

2. How do you get most cold germs?

(A) from germs on your hands

(B) by getting wet and cold

(C) from too much water

3. Which picture shows a word that has the same middle sound as *soap*?

(A)

(B)

(C) 
4. What does *special hand wipes* mean?

(A) things made for cleaning your hands

(B) cloths made for scrubbing things

(C) things made for cleaning your face
