A eWallet is kept in a bank account.

B using eWallet makes daily purchases easier.

C busy people need to use eWallet for their convenience.

Feedback from students...

Laila: I find it hard to understand what is being taught. I would like to know if what I learn will be helpful in real life.

Aaron: I hope to have a more personal interaction with my teachers. Personally, I feel there's a lack of interpersonal relationships between students and teachers.

5. Which of the following issues were raised by Laila and Aaron?

A Aaron and Laila both talked about the relationship between the two of them.

B Laila talked about contextualising students' learning, while Aaron shared the importance of interpersonal relationships.

C Aaron shared about students' lack of interpersonal relationships, while Laila hoped to learn more about real life.

Plastic is a very useful material that is very strong and lasts for a long time. It is durable and has many uses. However, do you know that plastic takes a thousand years to break down? The Earth is polluted with this material, and unless some drastic measures are taken, we will all have to move to Planet Mars to continue living. All of us have a part to play. We can substitute plastic bags with recycled cloth bags. If all of us were to refrain from using plastic bags when shopping, we could significantly reduce the production of plastic bags, which are being produced at an alarming rate of 500 billion pieces a year.

6 . What is the main idea of the text?

A Advantages of using plastic.

B Reduce the use of plastic before it's too late.

C Plastic and its importance when living on Planet Mars.

A To share the details of the event with prospective participants.

B To advertise that there will be a seminar on Photoshop software.

C To inform people that the academy will hold a Photoshop lesson for only one day.

Coffee beans, which grow on a plant, are actually cherry seeds. The coffee plant produces small multicoloured cherries, which have seeds known as a 'peaberry', and that is where the beans are harvested from.

Coffee bean plants can take up to one year to grow, and then it will take roughly another five years before any fruit is produced. To maintain the height of these plants, they are regularly pruned (dead or overgrown branches are trimmed away). However, if left untrimmed, they can grow very high.

Source: www.operantcoffee.com/blog/2018/2/26/10-facts-about-the-coffee plant

8. All of the following statements are false **except**

A The branches of coffee bean plants are regularly trimmed.

B The coffee bean plant can take up to one year to produce fruit.

C The coffee bean plant produces cherries of the same colour.
