- A**  I am so scared that I haven't been to see one for more than 15 years. I hate thinking about them! I feel the same way about dentists, too. **Carl**
- B**  I have a fear of going over bridges, and on motorways at over 60 mph. I'm OK at 45 mph. I once went over a bridge and I had to stop in the middle – I was really **frightened**. I haven't driven that way since then, and that was seven years ago. **Becky**
- C**  I thought I was the only person that had this fear! I'm OK with the small ones, but I'm **terrified** of the big ones. I'm OK if they aren't close to me, but as soon as they start flying near me I run away. I like looking at pictures of them because they can be beautiful, but if they fly towards me, especially towards my face, I panic. **Mina**
- D**  I suffer from this phobia, and what works best for me, if I know that I'm going to be in a situation where there'll be a lot of people, is to arrive early. Then other people arrive little by little, and that helps me. The worst thing is walking into a place that is already full of people. **Simon**
- E**  I've had this phobia for about 20 years. It started when I was a child, about six I think. I had a bad dream where I was in a block of flats high up on a hill and I nearly fell out of the window. I woke up and started crying. I haven't been to any really high places since then. Even if I imagine I'm in a high place, I feel **dizzy**. **Keith**
