READING PASSAGE: LIFE IN THE COUNTRYSIDE

I live in a small village. Life here is moving **more slowly** than in the city, but I love it. During the harvest season, the farmers have to work **harder** than usual. They wake up **earlier** to collect the crops.

In my village, the air is **fresher** because there are many green trees and vast rice fields. Children play **more freely** here; we often go kite flying or swim in the river. Although we don't have many modern cinemas, we live **more happily** and stay closer to nature.
