For questions 26-32 mark the correct letter A, B or C on your answer sheet.

Australia – a great place to be

When people think of Australia, they often picture beautiful beaches, lovely weather, and lots of dangerous animals – such as saltwater crocodiles and taipan snakes! It's true that we have these things, but Australia is more interesting than you might think. Australia is in the South Pacific and it's the world's biggest island. We don't have any borders with other countries and our closest neighbors are Papua New Guinea and East Timor. Australia is the sixth largest country in the world. It's thirty times bigger than the United Kingdom, but nearly three times more people live in the UK. In the center of the country there is a lot of desert. Most Australians live near the coast, where the country's biggest cities are. The good weather means we can do lots of outdoor activities. Summer lasts from December to February, and winter from June to August. However, Australia is enormous and the weather isn't the same everywhere. The north has two types of weather – very wet and very dry! The center stays dry all year round. But in the south, the weather changes from season to season. Summer in the south is hot, but winter can be cold, wet, and windy – you can even go skiing in the mountains!
Come and visit.
