A- WRITE THE CORRECT ANSWER IN THE GAPS.

A FACE IN THE CLOUDS

It usually takes a little bit of sophisticated computer imaging to (1)..... (ACHIEVE/ GET/ MAKE/ CREATE) a cloud really look like a person's face. From time to time, though, someone (2).....(GLANCES/ SPOTS/ LOOKS/ STARES) the real thing. A few videos have been posted on the internet which (3).....(DISCOVER/ EXPOSE/ REVEAL/ BROADCAST) 'faces in the clouds'. In a (4).....(TYPICAL/ STANDARD/ NORMAL/ REGULAR) example, a man's profile seems to appear out of some storm clouds, and even resembles a world-famous person from history at one (5).....(PHASE/ STEP/ POINT/ TIME). The fact that the clouds in a storm change shape quickly and frequently increases the (6).....(FORTUNE/ CHANCE/ LUCK/ OPPORTUNITY) that some combination of bumps will emerge to look like a face. (7).....(DESPITE/ ALTHOUGH/ ANYWAY/ HOWEVER), it will only look like that from one (8).....(SPECIAL/PARTICULAR/ INDIVIDUAL/ EXACT) place.

We probably wouldn't see faces in the clouds at all if it were not for a clever brain (9).....(JOKE/ TRICK/ CHEAT/ TRAP) called 'pareidolia', the technical term for the human habit of seeking out and finding (10).....(FAMILIAR/ USUAL/ FREQUENT/ ROUTINE) patterns in random objects. We can't (11).....(HANDLE/ MANAGE/ HELP/ SUPPORT) it — most of us do it most of the time. And human brains are especially good at seeing faces, which partly (12).....(SHOWS/ EXPLAINS/ TELLS/ DESCRIBES) why people see them on the (13).....(SOIL/ LAND/ GROUND/ SURFACE) of the moon as well as in clouds.
