Read the passage and choose the correct answer A, B, C or D to each of the questions.

Communication technology is making a big difference in our lives, especially for businesses. It makes things work faster and better, and it helps businesses make more money. The 5G wireless network is going to make things even better. It will let us talk to each other and to machines in almost real-time, even if we're in different places. This is because 5G is super fast, has lots of bandwidth, and is really reliable. This means we can do things like have video meetings with people who are far away and control machines from a distance.

5G and IT are also helping us create smart cities all over the world. These cities have lots of devices, like smartphones, cars, and machines, all connected to the network. The amount of information and data being transmitted over the networks will be huge, so we need to ensure that we have good ways of communicating. In thefuture, there will be three main types of communication: machine to machine, human to machine, and human to human.

26. How is communication technology impacting businesses?

A. It's making things slower
B. It's not affecting businesses at all
C. It's helping businesses work faster and better
D. It's reducing business profits

27. What is the 5G wireless network expected to improve?

A. It will make things slower
B. It will reduce business efficiency
C. It will enable real-time communication across distances
D. It will make communication less reliable

28. Why is 5G considered super fast and reliable?

A. It has very limited bandwidth
B. It is known to be slow and unstable
C. It has lots of bandwidth and is highly dependable
D. It doesn't work well with video meetings

29. What are smart cities equipped with to enhance connectivity?

A. No devices at all
B. Devices like smartphones, cars, and machines connected to the network
C. Only computers connected to the internet
D. Paper-based communication systems

30. In the future, what are the three main types of communication mentioned in the text?

A. Machine to tree, machine to cloud, and human to machine
B. Human to robot, human to dog, and machine to machine
C. Machine to machine, human to machine, and human to human
D. Human to cat, human to bird, and machine to cloud

Choose the correct word A, B, C or D for each gap to complete the following passage.

Computers are helpful (1) _____ many ways. First, they are fast. They can work with information even more quickly than a person. Second, computers can work with a lot of information at the same time. Third, they can keep information for a long time. They do not forget things that the common people do. (2) _____, computers are almost always correct. They are not perfect, but they usually do not (3) _____ mistakes. Recently, it is important (4) _____ about computers. There are a number of things to learn. Some companies have classes at work. In addition, most universities offer day and night courses in Computer Science. Another way to learn is from a book, or from a friend. After a few hours of practice, you can (5) _____ with computers. You may not be an expert, but you can have for fun.

31. A. in B. on C.at D. over

LIVEWORKSHEETS
