In skull forest shadows hang
Same old story, love is
Fools and beggars, kings and priests
A thousand corpses look like

Come in pairs, share the
They go like one after cold last kiss
Dark-boned bodies from the
Have passed the to the after-life meet

In skull forest light has fled
Oh, boneflower adorns the

From the branches lovers hang
One way trip to the promised
Side by side and hand in
Nobody knows if were found

In skull forest the brave they hang
The ones that or the ones that won
To nurse the dream, to go or ?
If you have a you go all the way
