3 Look and match.

Match each word in column B to a word in column A which was the original word. The first one is done as an example.

A		B
1. pollute		a. starvation
2. conserve		b. extinction
3. inform		c. donation
4. prevent		d. prevention
5. extinct		e. information
6. starve		f. protection
7. donate	1	g. pollution
8. protect		h. conservation

Now underline the suffix of each word in column B. Look at the original word in column A and think about how the word has changed.

Now complete the rules.

We can form some nouns which describe **an idea or concept** by adding the **suffix** _____ or _____ to the original word.

When the original word ends in **–e**, we take away the **e** and add _____ or _____ .
