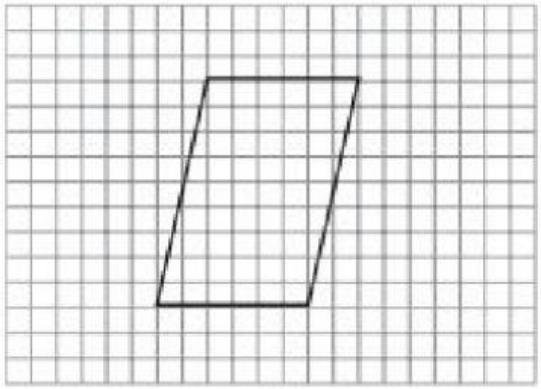
Lesson 17.3 Skills Practice

Problem Set

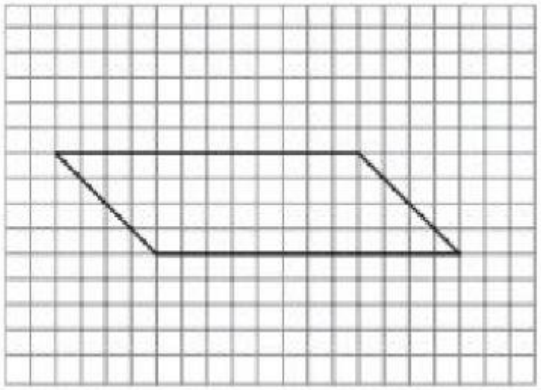
Calculate the area of each given parallelogram. Each square on the grid represents a square that is 1 centimeter long and 1 centimeter wide.

1.



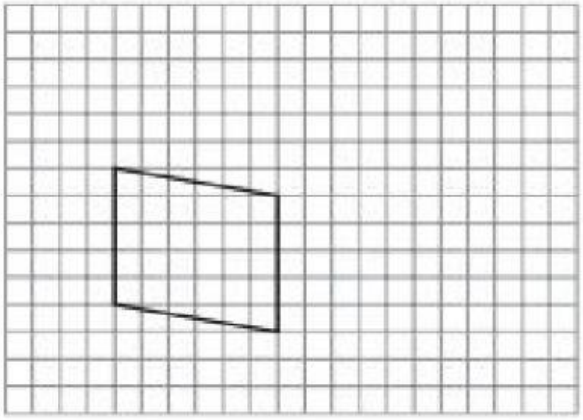
cm^2

2.



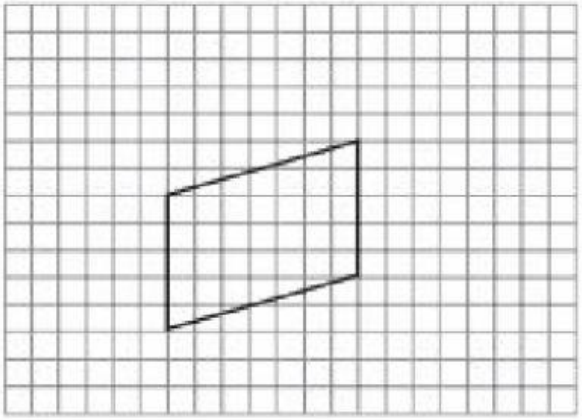
cm^2

3.



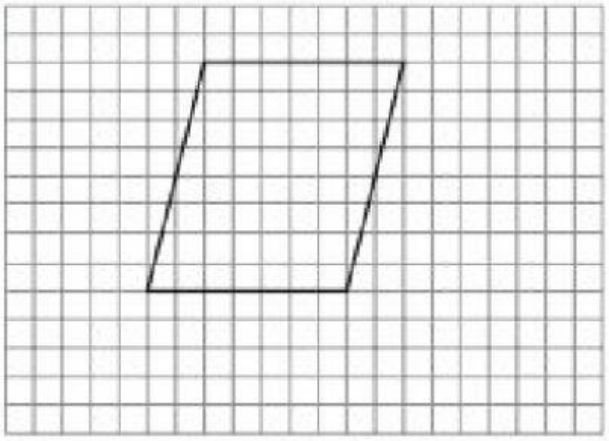
cm^2

4.



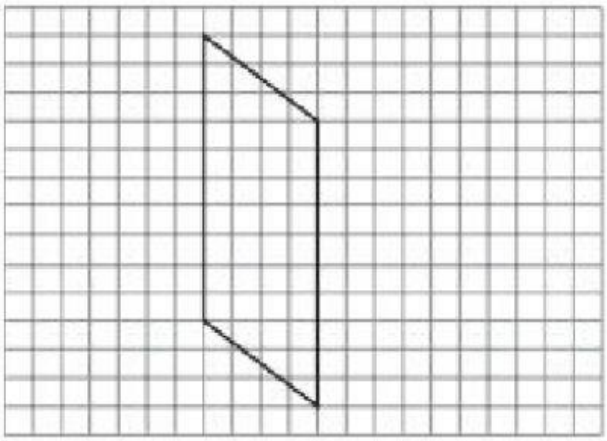
cm^2

5.



cm^2

6.



cm^2

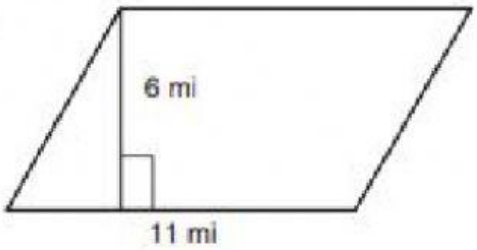
LIVEWORKSHEETS

Calculate the area of each parallelogram.

7.

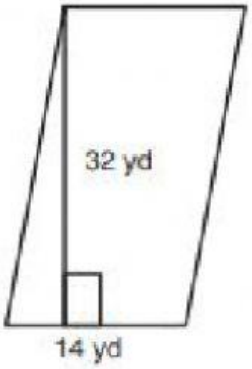
mi^2

8.



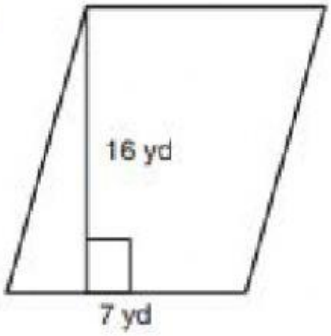
mi^2

9.



yd^2

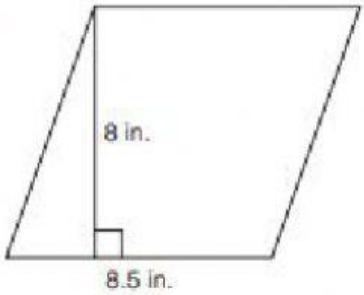
10.



yd^2

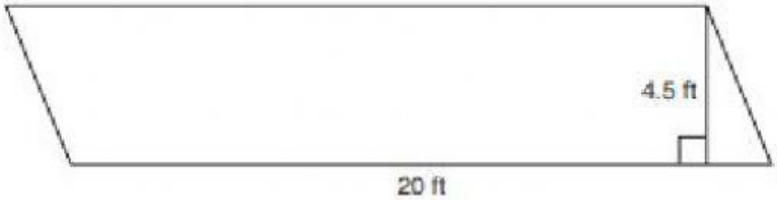
In each given parallelogram, the base, height, or area is unknown. Calculate the value of the unknown measure.

11.



in^2

12.



ft^2
