Read the story below carefully and answer the questions that follow.

It was Christopher's first day at school after his family moved in from the city. The other students came up to Christopher and tried to make friends with him. They asked him a lot of questions about himself and his family. However, Christopher just turned away rudely without saying anything. The other students were very surprised and upset with Christopher's attitude.

During recess, the other boys gathered into groups and played together happily. Christoper was standing alone and watching them play. They invited Christopher to join them but he refused. Seeing that Christopher was so proud and unfriendly, they did not want to be friends with him anymore.

Christopher felt very lonely, but he did not tell anyone about it. He simply kept quiet and stayed in his room. His parents were also worried about him. His father bought him a parrot to keep him company. Christopher spent all his time with his parrot and loved it very much.

One day, Christopher forgot to close the door of the cage. His parrot flew away and never came back. Christopher was so sad. He told everything to his classmates. His classmates were very supportive. Then, he became happy with his friends.

Selangor Darul Ehsan. 8 JUNE 2010

Dear Sir,

Dirty Conditions of School Canteen

On behalf of the students of SMK Cemerlang Indah, I would like to highlight the dirty conditions of our canteen.

2. The canteen is dirty where the rubbish is strewn all over the floor and overflowing in the rubbish bins. The worst thing is that, cats and cockroaches are scavenging these dustbins for food. In addition, the floor is greasy and can make the students slip and hurt themselves.

3. The food sold at the canteen is expensive. A small plate of fried rice costs RM3.00. It consists of only soy sauce and rice. Not just that, the food lacked seasoning and is always served cold.

4. I urge you to take immediate action against the canteen operators. Ensure that they operate the canteen properly.

5. I hope that you could look into this matter urgently. Your action in tackling this problem will be greatly appreciated.

Thank you.

Yours faithfully,
Razif
(Razif Bin Johan)
