The West Midland Safari Park is one of the most interesting places to visit in the UK.
It is not the biggest safari park in the world but you can see some amazing animals, such as elephants, tigers, lions, zebras and camels. There are over six hundred animals there, including some white lions. These lions are very unusual and you don't see them very often.
You can drive around the park slowly in a car or there's also a train that goes through the middle of the park. The train is faster than the car, of course. There is also a bus with a tour guide so you can find out more information from the guide.
You have the chance to feed some of the animals, too. But they only eat special animal food, so don't give them sandwiches or chocolate!
