

LAST DANCE

My heart was born a radical
electric and dynamical
I've never listened **to in** the remedies
but no forevers no eternities

Holding on beyond the **night right**
for a shadow that feels right
holding on beyond the night
to you

If the dreams we made are made of fire
I would give a life just to live the dream again
if our hearts are hanging on a **wire liar**
let's forget the world **below before** and dance
until the end

Let's dance
Our last dance
Rocking romance
This ain't our **last first** dance
Let's dance!
Ooh oh oh

My heart was born in neon **lights nights**
floating in space like satellites
looking for signs of life tonight
as we collide in black and white

Holding on beyond the **night right**
for a shadow that feels right
holding on beyond the night
to you
If the dreams we made are made of fire
I would give a life just to live the **dream stream** again

Let's dance
Our last dance
Rocking romance

This ain't our last dance
Let's dance!
Ooh oh oh
This ain't our last dance

Take a deeper breath before we touch
running out of time let's use it up
hold me before the **morning mourning** comes

Let's dance
Ooh oh oh
Rocking romance
This ain't our last dance
Let's dance!
