4	Well, let me tell about my stuies. My school has aplied studying from home for months because of the pandemic. We attend classe online, then we do assignment and submit them via group/chat. You know, I occasionally don't unerstand certain materials. I have to browse the internet to find more references. It spends more money.

6	I have good news. Now, I study at school twice a week, besides studying fom home. We are divide into groups. The local government opens several schools because my town has a low risk of the spread of the virus. You know, it is not easy to achieve it. The government always reminds us to obey health protocols whenever and wherever we are, and we do it. Luckily, we can control the spread of the virus.
7	How is your school? Do you study at home during the covid-19 pandemic? I heard from the news that the number of cases in your town decreases every day. I hope there is no more case
