Name_____ Date_____

Answer each question about the rock cycle.

1. What kind of rock forms from sediments?
    a. Igneous Rock
    b. Sedimentary Rock
    c. Metamorphic Rock

2. What kind of rock forms from cooling and hardening?
    a. Igneous Rock
    b. Sedimentary Rock
    c. Metamorphic Rock

3. What kind of rock forms from heat and pressure?
    a. Igneous Rock
    b. Sedimentary Rock
    c. Metamorphic Rock

4. Crystals and ribbonlike layers are characteristics of
    a. Igneous Rock
    b. Sedimentary Rock
    c. Metamorphic Rock

5. Gas bubbles and glassy surface are characteristics of
    a. Igneous Rock
    b. Sedimentary Rock
    c. Metamorphic Rock

6. Fossils and sand/pebbles are characteristics of
    a. Igneous Rock
    b. Sedimentary Rock
    c. Metamorphic Rock
