The Engineering Design Process

Match the word to the definition

Step 1	Step 2	Step 3	Step 4	Step 5
What is the problem? How do we start? What do we need?	Brainstorm ideas. Choose the best one.	Draw your design. Make a list of materials.	Draw your design. Make a list of materials.	What works? What doesn't? What could be better? Change your design and make it better.

Imagine	Ask	Plan	Improve	Create
