There are many reasons why people become vegetarians, including personal health, the environment, and the economy.

A vegetarian is a person who does not eat meat, poultry, and fish. Vegetarians mostly eat fruit, vegetables, legumes, grains, seeds, and nuts. Vegetarians also consume eggs and dairy products, but they avoid meat products, such as beef, chicken stocks, and gelatin.

According to research, vegetarians have lower risk of heart disease, high cholesterol, diabetes, obesity, and high blood pressure. This may happen due to a healthy vegetarian diet, which has low fat but high fibre.

However, a vegetarian diet can be high in fat if it includes excessive amounts of fatty snacks, fried food, whole dairy products, and eggs.

At the same time, a vegetarian diet can be simple and easy to prepare. Therefore, a vegetarian diet must be well-planned to prevent and treat certain diseases

Dear Jonny,

Hello! How are you? I received your letter today. I am very excited to hear that you are coming to stay with me for the holidays. I am sure we will have a lot of fun together.
My parents have agreed to let you stay with me. They offered to pick you up at the airport. All you have to do is to tell us when you are coming.
I will now tell you about some of the things you will experience here in Indonesia. You do not have to worry about the local spicy food. We have a lot of fast food restaurants here like the ones you have in England.
You can also shop for souvenirs to bring home. Sarinah or Blok M are our famous shopping areas. They have many shops selling all kinds of things. I am sure you will love them.
I am also planning to take you to a few tourist spots like miniature of Indonesia, National monument, or Safari Garden. We can also go to the Ancol beach where you can swim, play on the beach, and have picnics.
My family and I are looking forward to your coming. I hope to hear from you soon. Good bye.

With love.

Nadim

A cell phone is a great gadget in this modern world. What is a cell phone? A cell phone is actually a radio in certain way. Like a radio, by a cell phone we can communicate to other people in real time. Million people use cell phone for their communication. Even nowadays, people use cell phones to communicate in voice, written and data. Alexander Graham Bell is the person who make great change in the way people communicate to each other. He invented a telephone in 1876. While wireless radio was formally known in 18994 presented by Guglielmo Marconi. By these two technologies, then a cell phone was born. However do you know how actually cell phones work?

This short explanation on how a cell phone work is really wonderful. A cell phone or in long term "cellular telephone' works by transmitting signals of radio to towers of cellular. The towers are networked to a central switching station. The connection usually uses wire, fiber optic-cables, or microwave.

Then the central switching station which handles calls in certain given area is directed connected to the wire-based telephone system. Cellulars are pick up by the towers and relayed to another cellular telephone user or the user of wire-based telephone network. the towers vary in the capacity and capability to receive signals. Some can receive the signal from short distance and the others can receive more distance. However, there are usually more than one tower in certain given area so that the system can handle the increasing telephone traffic.

Straight Through The Heart
Song by: Dio

Hanging ....(31) the cobwebs in your mind
It looks like a long, long way to fall
No one ever told me life was kind
I guess I never heard it, never heard it all

Living in a world of make believe
I can hide ....(32) what's real
But wearing your emotions on your sleeve
And they all know what you ....(33)

And here it comes again
Straight through the heart
Straight through the heart

Oh, never .... (34) a secret with your eyes
It's the eyes that let you down
Tell a little truth ....(35) many lies
It's the only way I've found

Shout to the wind
How can you hurt me this way
Oh once it begins
It looks like it's coming to stay
