Describe a game or sport you enjoy playing

I've played several games, both indoor and _____[1]. Out of these games, I enjoy playing chess more than the others. Chess is an indoor game where two _____[2] participate. This game does not involve any major physical _____[3] like other outdoor games, but a chess player has to use his or her brain to win.

I mostly play this game with my friends and cousins. Sometimes I play it with my father. Since playing chess only needs a _____[4] and chess pieces, you can play chess almost _____[5]. I usually play it at home. I enjoy this game because you have to use your _____[6].

This game gives you a feeling of being in _____[7] because only you decide how to move the pieces. This is a very interesting and enjoyable game to me for all of these reasons.
