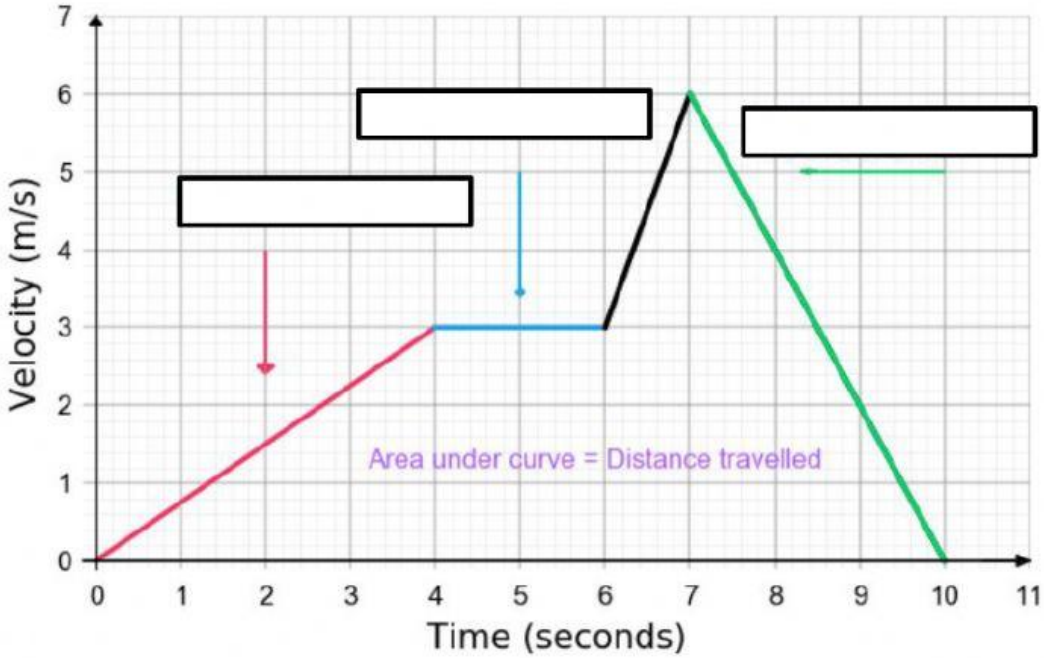
Unit 1 lesson 2 Question sheet

Question 1: drag and drop the correct answer

(A)- Acceleration – Constant speed - Deceleration



(B)- Drag and drop each box in the correct place: -

More than one | Less than one | Deceleration | Equal one | acceleration

1- The ratio between the final speed and the initial speed of an object moves at an accelerating motion is……

2- The ratio between the final speed and the initial speed of an object moving in a straight line in a decelerating motion (a negative acceleration) is……

3- When the final speed of a moving object is less than its initial speed, therefore the object motion is described as……
