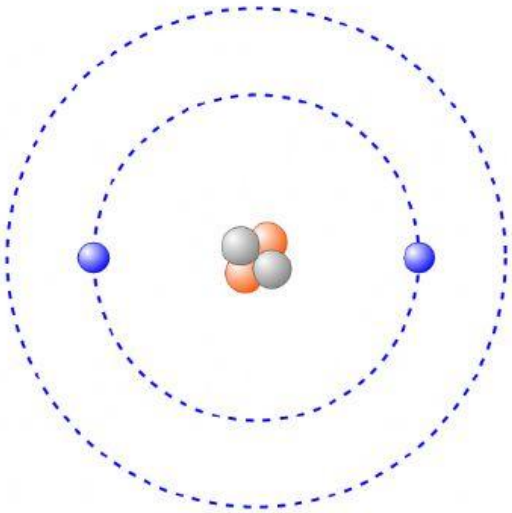
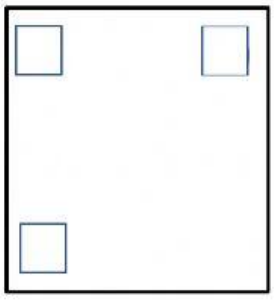
Chemistry

Atomic Structure Worksheet

Fill in the labels for the atom below and its atomic symbol.





LIVEWORKSHEETS

Match the correct definition to each of the terms below.

ATOMIC NUMBER	This is known as the heart of the atom where protons and neutrons can be found.
ATOMIC MASS	These are negatively charged particles found in the shells orbiting the nucleus.
PROTONS	These are positively charged particles found in the nucleus of an atom.
NEUTRONS	This is the total number of protons and neutrons in an atom.
NUCLEUS	This is the number of protons in an atom.

LIVEWORKSHEETS

Fill in the Periodic table below with the correct elements.

1																	2
3	4											5	6	7	8	9	10
11	12											13	14	15	16	17	18
19	20
