CHILDREN 4 - PRACTICE FOR FINAL EXAM

1. **Read and answer**

Sam, Molly, and Mom decided to throw a surprise birthday party for Dad. They got ready for it while he was at work.

They invited their aunts and uncles and their cousins. Sam called them all on the phone and said, "Please, arrive by 4:30. Dad is going to be home at 5 o'clock."

Mom put a chocolate cake in the oven, then made snacks for everyone to eat. Sam made his Dad a birthday card. Molly ran to the store to buy balloons and birthday candles.

"We must make sure the house is clean before everyone comes," said Mom. Molly and Sam cleaned the livingroom. Mom stayed in the kitchen and finished preparing the food.

All of the guests arrived on time for the surprise party. Molly and Sam played video games with their cousins until Dad got home.

When they heard Dad's car, everyone went into the kitchen. When Dad walked in the house everyone jumped out of the kitchen and shouted, "Surprise!"

"Wow!," said Dad. "This is a real surprise! My birthday is still two months away!" Dad was surprised, but so was everyone else in the family!

The party was two months early, but everyone had a spectacular time.

1. Why did Sam ask everyone to be there by 4,30?

_____

2. Molly and Sam made a birthday card for their dad. TRUE FALSE

3. Where did they all go when Dad arrived?

_____
