MY SHAUN THE SHEEP BOLSTER

I got a surprise this morning. My uncle visited my house and brought me a bolster with the head of Shaun the Sheep. The head has long ears and, wide, stupid eyes. I bet you know about this funny character.

The new bolster is made of soft fabric. It is soft and fluffy like woolen fabric. The bolster is about a meter long. The lower part's color is black, while the upper part's color is white. The bolster has two front legs, but, strangely, It doesn't have any hind legs.
