Name: _____

Kinetic or Potential energy ?

Potential energy is stored energy and is waiting to work.

Kinetic energy is energy that is working.

1) When a dog is sleeping, it is Potential
Kinetic energy.

2) When a dog is running, it is Potential
Kinetic energy.

3) If the light is on, it is Potential
Kinetic energy.

4) If the light is off, it is Potential
Kinetic energy.

5) When the orange is in the tree, it is Potential
Kinetic energy.

6) When the orange is falling from the tree, it is Potential
Kinetic energy.

7) When the flash light is working
not working , it is potential energy.

8) When the flash light is working ,
is not working it is kinetic energy.

9) When the blender is working
not working , it is potential energy.

10) When the blender is working ,
not working , it is kinetic energy.
