

Ordering Fractions on a Number Line

Order the following fractions on the number line below:

$$A = \frac{\quad}{7} \quad B = \frac{\quad}{7} \quad C = \frac{\quad}{7} \quad D = \frac{\quad}{7}$$

$$A = \frac{\quad}{\quad} \quad B = \frac{\quad}{\quad} \quad C = \frac{\quad}{\quad} \quad D = \frac{\quad}{\quad}$$

$$A = \frac{\quad}{\quad} \quad B = \frac{\quad}{\quad} \quad C = \frac{\quad}{\quad} \quad D = \frac{\quad}{\quad}$$

Order the fractions above from the smallest. (write the letters)

$$A = \frac{\quad}{\quad} \quad B = \frac{\quad}{\quad} \quad C = \frac{\quad}{\quad} \quad D = \frac{\quad}{\quad}$$

Order the fractions above from the largest . (write the letters)

$$A = \frac{\quad}{\quad} \quad B = \frac{\quad}{\quad} \quad C = \frac{\quad}{\quad} \quad D = \frac{\quad}{\quad}$$

Order the fractions above from the smallest. (write the letters)
