Part 3: Questions 14-18

For each question, choose the correct answer.

Students and Sports

Playing sports is an important part of life for many students. At my school, most of my classmates enjoy playing sports in their free time. Some students join school teams, while others play with friends. Sports like basketball, football, and volleyball are very popular, and many students also enjoy individual activities like running or swimming.

Sports can help students stay healthy and strong, but they also teach important life skills. For example, playing on a team helps students learn how to work together, share responsibilities, and trust each other. Individual sports, on the other hand, can help students become more independent and disciplined.

However, some students avoid sports because they think they are not good enough or worry about getting hurt. Coaches at my school always encourage everyone to try their best and remind us that it's okay to make mistakes. They say sports are not just about winning but about having fun, staying active, and improving yourself.

When I feel stressed about schoolwork, playing sports helps me relax and feel more positive. Running on the track or playing a game with friends makes me forget about my worries for a while. That's why I think sports are important for every student, even if it's just for a short time each day.

E. WRITING

TOPIC: WRITE ABOUT YOUR MOM/DAD

- What is her/his name?
- How old is she/he?
- What does she/he do? (Are they a teacher, doctor, farmer, etc.?)
- What does she/he like? (Hobbies, favorite food, or activities?)
- Do you love your mom/dad?

Example:

My mom's name is Anna, and she is 40 years old. She works as a nurse at a hospital near our home, and she loves helping people feel better.

In her free time, my mom enjoys gardening. She has a small garden in our backyard. Her favorite flower is the rose, and her garden is full of them. She also likes cooking, and her favorite dish to make is spaghetti. I think she is the best cook in the world because everything she makes tastes delicious.

One thing I admire about my mom is how caring and hardworking she is. She always makes time for me and my siblings, even when she is busy with work. She helps me with my homework and listens to me when I have a problem.

I love my mom very much because she always supports me and encourages me to do my best. She is not just my mom but also my best friend. I feel very lucky to have her in my life.
