WHERE DO YOU LIVE?

Read the definition of each place and fill in the blanks according to the definition.

A house is a structure made up of bricks and cement; it is more a physical entity than a home, which connotes emotional feelings. • A home is a place where people live, and they feel they belong to. So, for a house to become a home people should live in it, and they should have an emotional attachment to that place.

An apartment is a building full of apartment homes. It is simply the physical structure. Apartment complexes are more than simply homes though. They contain many important rooms and features that are essential to running the complex.

A hotel is an establishment that provides lodging and usually meals, entertainment, and various personal services for the public
