7. Aiden made $3\frac{2}{3}$ boxes of pasta for the baseball team's dinner. They ate only $\frac{1}{3}$ of that amount. How many boxes of pasta did the team eat?

$$3\frac{2}{3} \times \frac{1}{3} = 3 \times \frac{1}{3} + \frac{1}{3} \times \frac{2}{3} =$$
