Last year, my sister and I flew to England to visit my grandma. We had a lovely time and bought gifts for everyone. My grandma also gave me presents. Our flight was on Wednesday, so on Tuesday evening, we started packing our suitcases. It took ages to fit all the presents into our suitcases. We finished at 9 pm. Just then, a message appeared on my phone 'check-in desk open.' I was confused. I checked the flight details and it said Wednesday at 12:05. I suddenly realised that actually meant five past midnight that night! Thank goodness we packed our bags early. We jumped into a taxi and we arrived at the airport about 15 minutes before our flight left. We got on the plane just as they were closing the doors!

I flew to Spain on holiday last year and everything was fine until I decided to visit the toilet. Don't worry nothing bad happened in there! When I returned to my seat, I decided to sleep for a little while. So, I put my headphones on and I wore my eye mask. I was just about to fall asleep when someone started coughing next to me. I ignored it but the person got louder and louder. The cough sounded a bit strange so I lifted up my eye mask to see who it was. There was a man standing over me. I was surprised, but then he said, "Excuse me, but you're in my seat." I was so embarrassed. My seat was in the row behind!
