A Life Full of Inspiring Experiences

1. Hi Katherine,

You know, living by (1) ____ for my freshman year has been a little challenging. It is not comfortable doing things on my own all the time; I now realize how much my parents have always helped me.

This morning I got up at 6 o'clock. I had programmed the TV to turn on by (2) ____ early since I needed to get ready for school. On my way, I saw a man whose car seemed to have a flat tire. Although he looked old, he was changing the tire by (3) ____ . I thought he needed some help, but I did not really offer to help him because I didn't want to arrive late. Instead, I just kept walking. When I got to school and headed to my classroom, I found out that Mrs. Dodson, our math teacher, was not there for the first class. She sent a message to the school direction explaining that she is normally picked up by a relative in his car. Yet, his relative could not make it on time because his car had a flat tire. Therefore, she would need to travel to school by (4) ____ . Since Mrs. Dodson did not arrive to class, my classmates and I had to work by (5) ____ in order to fulfill an assignment she had sent. I think it wasn't easy for Mrs. Dodson to arrive to school since the students of the following class had to work by (6) ____ too. Given that the task we were assigned was a little difficult, my classmates and I weren't able to complete it, and now we have to investigate and finish it for homework. Next time I have the chance to assist someone, I will do it; I might save some work myself too.

Well it's been a pleasure staying in touch with you; take care of (7) ____ and keep in touch.

Best regards,
Eric.
