   A. VR headset
   B. 3D printer
   C. drone

14. Przeczytaj tekst i odpowiedz na pytania

Anna loves using modern technology in her daily life. Every morning, she puts on her smartwatch to track her steps, heart rate, and sleep quality. She finds it very useful for maintaining her fitness. During her commute to work, she listens to music on her wireless headphones, which are brilliant because they allow her to move freely without worrying about tangled wires.

At work, Anna uses an e-reader during her breaks to catch up on her favorite novels. She also enjoys using a VR headset at home to play virtual reality games with her friends. The games make her feel like she is in another world, although sometimes they can feel strange because they block her view of the real world.

Recently, Anna tried using a 3D printer to create a phone case for her smartphone. She was amazed at how easy it was to design and print an object at home. Her brother, Tom, prefers flying his drone to take photos and videos from the air. Together, they enjoy exploring new gadgets and discussing the latest inventions.

1. What does Anna use to track her fitness?
A. Wireless headphones
B. Smartwatch
C. VR headset

2. What does Anna use to listen to music?
A. E-reader
B. Games console
C. Wireless headphones

3. What does Anna use during her work breaks?
A. A drone
B. An e-reader
C. A 3D printer

LIVEWORKSHEETS

4. What does Anna use at home to play games?
A. Smartwatch
B. VR headset
C. Games console

5. What did Anna create using a 3D printer?
A. A book
