You are going to go into a Hot-Air Balloon with the people of other professions. Unfortunately, a freak gust of wind blows you towards a mountain range....and there's a problem …. You're too low.

The balloon is going to crash if you don't gain altitude so you need to lose weight. The only way to clear the mountains and survive is to leave only 3 people in the balloon.

You will have 60 seconds to explain why they should stay in the balloon.
