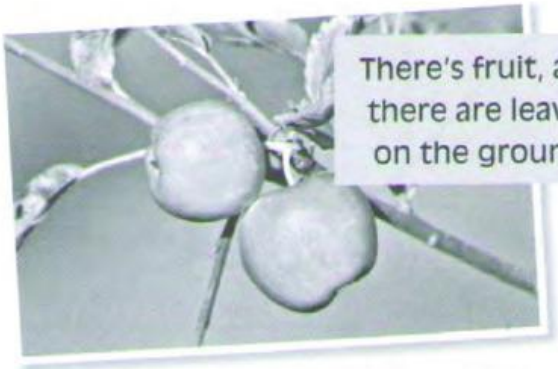
In the spring, it rains. Rain helps the tree to grow buds and green leaves. Birds make nests in trees for their chicks.

In the summer, it's hot. The tree has lots of green leaves. The buds become flowers and fruit.



In the fall, the leaves are red, orange, and yellow. The fruit is ready to eat. The leaves fall to the ground.

In the winter, the tree doesn't have leaves. There's snow on the ground.
