

Arithmetic: Grammar

- B Study the Grammar Box. Find and underline imperative forms in the text opposite.**

Giving instructions

We use the **imperative** to give instructions.

Example:

Do a calculation.

Press the delete key.

We make the negative with **Don't + imperative**.

Example:

Don't clear the screen.

- C Complete these instructions with a word from the box in each space. You can use the same word more than once.**

clear do press recall store use don't then
