		Obesity in American Schools
		[A] Why are there so many obese kids and adults in America? It is not only because [1]_____ technology and fast food restaurants- schools are also to [2]_____. The USA is the third [3]_____country in the world with 66.7% of [4]_____students obese. Following are four shocking [5]_____for that.
Body (causes of obesity)		**[B]** Take my school for example! Our [6]_____ serves greasy pizza, French fries, fatty burgers, chocolate milk, deep fried chicken nuggets, and sugary drinks. Schools all [7]_____ the country are serving us the same unhealthy food, which contributes to [8]_____ obesity.
		[C] The lack of physical exercise is [9]_____ cause. A big number of schools don't offer bike racks and require [10]_____ to come by bus or to be driven by cars. Additionally, a lot of schools don't have a sports hall, [11]_____ on the frequent rainy and windy days, students stay in a regular classroom.
		[D] Would you believe that homework can also contribute to obesity? [12]_____we have so much homework that we sometimes don't have [13]_____ to go outside and play. Instead, we would take frequent [14]_____ to have snacks.
		[E] One [15]_____ reason has to do with [16]_____ stressful atmosphere at most schools. Unfortunately, most counsellors don't do much to lower the tension caused by the long lessons, numerous exams, [17]_____ bullying. This leads a big number of students to end up putting on weight because they sleep longer hours and exercise [18]_____.
		[F] In conclusion, American schools are [19]_____ for teen obesity and if they don't address these causes, we will have serious health [20]_____ and bad school results.
