Speaking question 1 – independent

Read the question. Prepare yourself and record your response.

Some people like to shop in stores with the same fixed prices for all customers. Other people like to shop in stores where they can negotiate or bargain to get a better price. Which type of store makes the most sense to you and represents the way you like to shop? Explain your choice using reasons and examples to support your response.

Preparation time: 30 seconds
Response time: 45 seconds

Speaking question 2 – Integrated

Read the professor's announcement. Then listen as two students discuss the announcement. You have 30 seconds to prepare an answer. After the 30 seconds, you have 60 seconds to respond to the question.

When students enter class late, they distract other students and the instructor, who may have begun a lecture. To encourage students to arrive on time, a quiz will be given at the start of every class. This quiz will cover the class lecture of the previous day. Grades are "pass," "fail," or "0" if you are not in class for the quiz. The quiz is ten minutes long—no additional time—and no student can enter class during the quiz time. If you are late, wait outside the classroom until the quiz is finished and then enter and take your seat.

audio 3:29

Please record your response to this question: **<u>The woman expresses her opinion about the professor's announcement of the new quiz policy. State her opinion and the reasons she gives for the opinions.</u>**
