UNIT 6 READING:

Life in my family

You don't need to read every word to find the information you want.

From Monday to Friday, my mother gets up at quarter to six in the morning. She has a banana and some fruit juice and then she runs 10 kilometres. I get up at quarter past seven with my dad and my little brother. I have a shower and get dressed. And then the whole family has breakfast together at half past seven.

When my brother and I go to school, my mother goes to work. She has a part-time job in a laboratory. In the afternoon, she goes to a sports centre with an ice rink. At the sports centre she meets the other members of the ice hockey team. Sometimes they work with a professional trainer in the gym, and sometimes they work with their coach on the ice.

After school, my brother and I usually do some chores. We tidy up. I take out the rubbish. My brother feeds the cat and waters the plants. Our dad does the cooking. He likes cooking. He always prepares tasty food that is good for us. When my mum comes home at six o'clock, the house is tidy and dinner is ready. We always have dinner together, and we talk about what we did at school.

Last weekend, my mother played an important match. Her team didn't win, but she scored lots of goals. I took this photo! My brother and I are very proud of our mother.
