Once upon a time, there was a kingdom named Umbul Wening ruled by Prabu Ranubahu. He had a very beautiful daughter, Dewi Arum. She had a bad habbit. She couldswimming for many hours in the pond and forgot everything even her duties as a princess.

One day, the people of the kingdom suffered a terrible illness. Lotsof them were died.Nobody could cure the illness. Until one day,an old man visited the king and told him that the illness could be cured only with the rare flowers from the pond in Krendawahana jungle which had to be picked by Dewi Arum.

Then, the king asked Dewi Arum and her ladies-in-waiting to go to the jungle to pick the flowers. After a very difficult journey, they finally arrived at the pond. The water of the pond soon attracted the princess. She jumped to it and swam for hours neglecting the ladies who reminded her about the mission.

Hearing about the princess' behaviour, the king got angry. Then, he went to the jungle to see the princess. Arriving there, he said angrily, "People are waiting for you to bring the flower to cure them, but you neglect your duty. You'd better stay here in the pond forever!"Suddenly, the princess disappeared from the water and amazingly appeared as a beautiful white flower. The king took it to the palace and surprisingly the people were cured. They named the flower water lily or bunga teratai in Indonesian.

Rainbow is a natural phenomenon in the form of arc spectrum in the sky caused by the refraction of light. Rainbow appears after the rains. The colors are red, orange, yellow, green, blue, indigo, and violet.

Rainbow is in the form like an arc. However, it actually has a circle shape. The half of the circle can be seen when we see from the higher places such as a mountain or when we are on a plane.

The colors are formed as the effect of the refraction and reflection of the sunlight. After raining, the sunlight, which is the white light, touches the raindrops and it is reflected. The light will be separated in different degrees and produces different wavelengths.

These wavelength are accepted by our eyes in the form of different colors or spectrum, and we call it as a rainbow. As its position is opposite the sun, we need to turn our backs to the sun to see it.

14. What is the topic of the passage?

Insha Allah by Maher Zain

(Intro 1)
Everytime you feel like you cannot go on
You feel so lost
That you're so alone
All you is see is night
And darkness all around
You feel so helpless
You can't see which way to go
Don't despair and never lose hope
Cause Allah is always by your side
(Chorus)
Insha Allah, Insha Allah
Insha Allah, you'll find your way
Everytime you commit one more mistake
You feel you can't repent
And that its way too late

LIVEWORKSHEETS

Kill'em with Kindness
By Selena Gomez

The world can be a nasty place
You know it, I know it, yeah
We don't have to fall from grace
Put down the weapons you fight with

Kill 'em with kindness 5x
Go ahead, go ahead, go ahead now

We're running out of time
Chasing our lies
Everyday a small piece of you dies
Always somebody
You're willing to fight, to be right

Your lies are bullets
Your mouth's a gun
And no war and anger
Was ever won
Put out the fire before igniting
Next time you're fighting
