MY FAVORITE SHOP

Read the three texts and answer the questions below.

A. Mateo

My favorite shop is Adidas because I love sports. I usually go there at the weekend with my brother. I often buy trainers and sports clothes for running and football. The shop is big and has modern designs. Last year, I saved my money to buy new running shoes. The staff are friendly and help me choose the right size. I don't like shopping online because I prefer trying things on.

B. Sofia

My favorite shop is Barnes & Noble because I enjoy reading. I often go there after school to look at books and magazines. It is a quiet place where I can relax. There is also a small café inside, and I sometimes have a hot chocolate. On my birthday, I like going there with my friends because it feels special. I don't always buy anything, but I enjoy spending time there.

C. Nick

I like going to Coolbox because I am interested in technology and gadgets. You can find smartphones, headphones, speakers, and fun electronic games. I usually visit the shop in the shopping center near my house. I often go with my friends, and we test some products in the shop. Last month, I bought a portable speaker, and I use it every day. I don't enjoy clothes shopping, so this shop is perfect for me.
