Find the translation of the words:

Laws of the universe		диагностировать
to diagnose		начать карьеру
muscles		достигать
to start a career		Инвалидное кресло

blinking	
wheelchair	
to enable	
to give up	
to achieve	

	Дать возможность
	Законы Вселенной
	сдаться
	мышцы
	моргание

The person **I admire**

by Jenny Smith

1 The person that I admire the most is scientist Stephen William Hawking. He was born on 8th January 1942, in Oxford, England. Stephen is famous for his work on the basic **laws of the universe**. He is also famous for the way he copes with having Motor Neuron Disease (MND).

2 Stephen studied Physics at University College, Oxford. He was **diagnosed** with MND while still at university. Stephen slowly lost control of his **muscles** and eventually he couldn't walk. Despite this, he finished his studies, got married and **started a career** at the university.

3 Some years later, he lost his voice completely. Unfortunately, he was in the middle of writing a book at the time and suddenly had no way to communicate other than **blinking**. Today, a computer system on his **wheelchair enables** him to speak. Of his many books, *A Brief History of Time* is Stephen's bestseller.

4 The reason I admire him is because he is very intelligent and brave, and he never **gives up on** life. When I think of him, I know that anything is possible as long as you really want it and work hard to **achieve** it.

5 **Use the headings to complete the paragraph plan.**

- later years
- the reasons Jenny admires him
- name, date/place of birth, profession
- early years
