Escuela Normal Bilingüe del Sur

WORKSHEET #3

Mathematics

System of linear equations with two variables

Instructions: Solve the proposed exercises clearly and orderly

Substitution methods

1. $\begin{cases} 3x - 2y = 8 \\ -2x + y = 3 \end{cases}$ **Solution (,)**	**2.** $\begin{cases} 3x + 2y = 12 \\ x + 3y = 11 \end{cases}$ **Solution (,)**

LIVEWORKSHEETS

3. Elimination method
