Name: **Grade:**

The most environmental issues

Vocabulary

Task 1. Learn new words. *Записать слова в тетрадь и выучить наизусть.*

overcrowded - перенаселенный
dry up - высохнуть
shortage of – нехватка
become extinct - вымирать
lose habitats - потерять среду обитания
have better living conditions - иметь лучшие условия жизни
save natural resources – сохранить природные ресурсы
protect endangered species – защищать исчезающие виды

Grammar

Task 2. Learn the rules. *Правила разобрать, записать в тетрадь и выучить наизусть.*

Future Simple (will / won't)

Affirmative	I/you/he/she/it/we/you/they **will/'ll** go out.
Negative	I/you/he/she/it/we/you/they **will not/won't** go out.
Interrogative	**Will** I/you/he/she/it/we/you/they go out?
Short Answers	**Yes**, I/you/he/she/it/we/you/they **will**. **No**, I/you/he/she/it/we/you/they **won't**.

Time expressions: tomorrow, next week/month/year, soon, etc.

We use **will** for:

- on-the-spot decisions. *It's too dark. I'll turn on the lights.*
- predictions based on what we think, believe or imagine with the verbs **think**, **believe**, **hope**, **know**. *I think forests will disappear in 50 years' time.*
- promises. *I'll be back in an hour. Don't worry.*
- offers. *I'll help you with your bags.*

Task 3. Use the verbs *become, not lose, not have, have, disappear, travel, dry up, rise* to complete the sentences with predictions. *Используйте глаголы become, not lose, not have, have, disappear, travel, dry up, rise чтобы завершить приговоры с предсказаниями.*

1 I think a lot of animals ..... .
2 I believe rivers ..... .
3 I hope animals ..... their habitats.
4 I know some animals ..... extinct.
5 I think temperatures ..... .
6 I believe we ..... any trees.
7 I know we ..... to other planets.
8 I hope we ..... less water pollution.

Task 4. Read the text. Choose the best title. *Прочитай текст. Выберите лучшее название.*

A) Air pollution

B) Save our mother Earth

C) Protect the forests

Our Earth is the most beautiful planet in our solar system. As far as we know, Earth is the only planet that has life.

Before 500 A.D., man had a good relationship with Mother Earth. But since humans developed cities and industries, the modern lifestyle has changed. Man has been using and misusing natural resources up to the limit. Our environment is totally polluted: we drink polluted water, breath air full of dust, and eat unhealthy food with toxic chemicals. So, we are suffering from diseases. All the problems we face today are made worse by deforestation, global warming, overpopulation, and shortage of food and freshwater and climate change. Now thousands of species are becoming extinct because their habitat is gone. Mother Earth is in danger; life on Earth is in danger. So what should we do?

As citizens of the planet Earth we hope that still we have time to save our planet. We think we will plant more trees and stop cutting trees. We hope we will save wild animals and close polluting industries. I believe we will make citizens aware of the importance of saving the environment, and we will do many things to protect the environment, forests and wildlife.

The Earth is our home we need to protect it.

Task 5. Read the sentences and write T (True) or F (False). ***Прочитайте предложения и напишите T (True) или F (False).***

1. The Earth is not the only planet that has life.
2. Some of our diseases are because of pollution of our environment.
3. Thousands of species are losing their habitats.
4. People shouldn't think about protecting the environment.
5. The environment is being destroyed because of humans' lifestyle.
